

PG200

Paddle Gate

TECHNICAL SPECIFICATION

Material

Cabinet: AISI#304
 Top: AISI#304
 Obstacle: Plexiglass/Tempered glass
 Internal metalwork: Galvanized iron

Operating parameters

Power: AC110V-220V 150W
 Operating temperature: 0~60°C
 Environment: Internal
 Operating humidity: 0~95% (No condensation)
 Storage temperature: -5~50°C
 Run voltage: DC24V
 Operating power: Standby5W Usually65W Peak75W
 Average life span: Not less than 500000 cycles
 Number of sensors (standard): 8
 Passage speed: 25-35 person / per minute
 Passage width(standard): 600/900mm
