

## 2.4G Active Tag (**AST-LT200**)

2.4G Active Tag is used for long distance card identification. The active tag can support up to 50m reading range and can pass through UV light glass. The Tag has built in 2 Lithium batteries to increase the life cycle and provide reliable communication.

### Specifications

	AST-LT200
<b>Communication</b>	
Frequency	2.4GHz to 2.5GHz
Life Cycle	~3years
Working Distance	Up to 50 meters, depend on reader
<b>General</b>	
Size	86 x 54 x 5mm±0.1mm
Working Environment	-10°C to 50°C 10% to 90% RH
Shell Material	ABS
Color	Milk White
